<u>CG-PAN-2 8/98</u>	6. Classified Information Excluded
	7. Other (Specify):

In the past, there has been relatively little difficulty in supplying Po, Po-Be, Po-B, etc., sources because the total polonium requirement has been small and the supply was ample. Recently, however, there have been sharp increases in the overall requirements with the result that interference and delay in the filling of source requests must be anticipated.

The Director of Production has requested an estimate of the polonium requirements for each Operations Office, to be used in scheduling material for sources. It is desired that the following information be furnished this office for each of your installations in Oak Ridge:

1. Estimated number of sources required during the balance of 1951 and the strength of each.
2. Approximate date required.
3. Purpose for which intended.

Very truly yours,

S. R. Sapirie
Manager
Oak Ridge Operations
